

OMM Solutions GmbH is a holistic digital transformation partner for medium and large sized companies. Our goal is to find, develop and provide intelligent solutions in the fields of education, innovation and technology. We are based in Stuttgart but interested in projects all over the world.

We are hiring:

JAVA DEVELOPER (Fulltime m/f/d)

Your Profile

- Solid experience with JavaEE (JAX-RS, JDBC, JPA, CDI)
- Experience in agile development (SCRUM)
- You know GIT and maven or gradle

Bonus

- Experience with codequality related tools and technologies
- Experience with Gitlab, jenkins, sonar
- Experience with design patterns
- Experience with Confluence or Jira

What you'll be doing

- Development of server-components for intranet- and enterprise-applications
- Define concepts and implement REST-interfaces
- Quality-driven Software-Development (TDD)

What you get

- Exciting projects with modern technologies
- Choose your system (Windows, Linux, OSX)
- The latest gadgets to play around
- Fair, performance-oriented salary
- Work-Life-Balance is part of our culture
- Steep learning curve
